67-81

ABOUT THE RIDE

68 Camaro Convertible SS

- Chris Mikeasha-Owner
- 5.3 Engine
- Synergy Green-color
- Started rebuilding it off and on in 2022.
- (Roughly 1 year)
- “Built it to drive it. Not to just bring it to shows”
- “Cruises like a dream”

Welcome to H&H Classic Parts

Thank you for requesting our catalog! We've spent countless hours editing, refining, and creating the most customer friendly experience for you. Our customers are always at the forefront of everything we do, so if you have any suggestions please feel free to share your thoughts with us.

Thirty-five years ago our company, H&H, was born with a modest investment as a part-time hobby business. With hard work and dedication we've grown into an internationally recognized brand. We've established a reputation for superior customer service, fairness, and fast shipping. We will continue to take care of you, our customer, placing your needs above our own. Price is not always our first concern; quality products are more important to us. Our goal is to offer you a better product than our competition at the lowest price we can, and always with the fastest shipping in the nation.

Again, we thank YOU; we would be nothing without our customers! Those of you that have bought from us in the past, present, and also to our future customers: if at any time we fail to meet your expectations with our service, product, or shipping, please contact us. As Herman would say, "We can't fix it, if we don't know about it."

We also encourage you to send us pictures of your projects and tag us on social media (Facebook and Instagram: @HHClassicParts). We enjoy featuring and highlighting your progress.
Happy shopping and restoring; we look forward to serving you!

Sincerely,

Herman D. "Tray" Smith III
President CEO

Sincerely,

Herman D. Smith, Jr.
Founder

POLICIES AND GENERAL INFORMATION

Returns Information

All parts in this catalog are sold with a satisfaction guaranteed policy. **Please examine your order immediately. All shortages, incorrect items, and damages must be reported within 7 days!** If the package was damaged in shipment, save the merchandise and packaging and notify us immediately for instructions. To return an item to us, please contact us for instructions and a return authorization number. If H&H is responsible for the incorrect shipment we will reimburse the customer for their return shipping charges but under no circumstances will H&H pay for additional charges incurred by using packaging services, air shipping or accept COD shipments. For your your protection, send the package by UPS or insured Parcel Post, saving the receipt until you hear from us. All Returns are subject to a 20% restocking fee. Special order items are non returnable except for warranty issues. No Returns on any items after 90 days. Any item sent back to H&H that has been opened or packaging defaced in any way will be subject to a repackaging fee. H&H reserves the right to refuse a returned item based upon its condition.

Pricing, Terms, Conditions

H&H Classic Parts reserves the right to change all prices, terms, specifications, and other information without notice. Please call or write us if you have any questions or if you feel there is a discrepancy.

Guarantee or Warranty

All of your parts are guaranteed for 90 days to be free of defects in materials and workmanship, unless noted within the catalog. Of course, the guarantee does not apply in the advent of any misuse, neglect, or improper installation or modification.

Payment

We accept Visa, Mastercard, Discover, American Express, PayPal (Paypal on website orders only). There is a minimum purchase of $10.00 on all credit card sales. Please provide the card number, expiration date, cardholder's name, and on mail orders the cardholder's signature. We also accept money orders and certified checks that are drawn on a US bank and/or financial institution. Sorry, no COD's or personal checks.

Damage or Shipping Claims

Make certain you inspect all packages in the presence of the driver/carrier. If you receive a package that has been damaged or opened, make a claim with the driver/carrier at that time. All claims of loss, concealed damage or other destruction must be made by you with the carrier. Save all boxes and packing materials as the carrier may want to inspect it. We apologize for any inconvenience that this may cause, but this is the policy of UPS and FedEx. Any shortages not the fault of the carrier must be reported within 7 days of receiving order. No exceptions allowed.

Special Order Non Stock Items

Due to extreme volatility in the supply chain at the time of this catalogs printing. Please be aware that ETA's on Special Order Non-Stocking items can be extreme. Please double check and do not assume that these items will be coming in a timely manner, but can be months out.

Back Orders

Listings in the catalog do not imply availability. It is rare that we are out of an item, however it will happen from time to time. In the event of a back order, we will cancel that item and you will need to reorder at a later date.

Product Changes

H&H Classic Parts reserves the right to make changes and improvements in our products without incurring any liability to include these in any products previously manufactured or sold.

Core Charges or Deposits

The purpose of core charge or deposit is to insure the return of rebuildable parts. Your deposit wil be promptly refunded when we receive your complete, rebuildable core. A copy of your original purchase invoice must accompany your core. No refund will be issued for damaged, broken, disassembled, or incomplete cores. No exceptions will be allowed. Your cooperation and understanding is appreciated

Sales Tax

Arkansas residents must include state sales tax. If you are an automotive parts business and/or you have a tax number, please include a copy of your permit with your order. To calculate sales tax you will have to contact us.

Notice

This catalog, its wording and/or pictures are property and copyrights of H&H Classic Parts and are forbidden to be used by anyone under the penalty of law!!!

Oversized	❹	$200.00
Truck Freight	🚚	Call for quote
Heavy Weight	🏋	$80.00

Please include name, shipping address, phone number, and a detailed list of the parts being ordered. Please include a method of payment such as credit card, money order, or cashiers check (sorry, no COD's or personal checks). If you have any questions, please call

479-787-5575 and we will be happy to assist you in any way.

Do you have an order that you want brought to one of the events? Well, go ahead and call it in the week before the show! We will have it pulled, invoiced, and waiting for you to pick up when you get there! To have parts brought to the show please call your order in by the Friday before the event.

US Ground Shipping Charges
Shipping charges are based upon how much you order and the size of the boxes or tubes that it will take to ship them. Our shipping charges are as follows:
Due to size and or weight, some parts will fall into the "Oversized" shipping classification resulting in an **additional fee on top of the normal shipping rate**. Please make sure you check on our website or in our catalog to see if your parts fall into this classification to correctly estimate your shipping charges. Any item that is a "Truck Freight" classification will have to be shipped by UPS Freight. For Truck Freight items, please contact our sales department for shipping costs. **If you have any questions regarding our shipping policy, please call us at 479-787-5575 BEFORE ordering.**

Truck Freight Orders
All truck freight orders are quoted on shipping on a case by case basis. We will need your address, city, state, and zip code to do this. We can ship these to residential addresses however there will have to be someone present to accept it. We prefer to ship this to a commercial address. All truck freight orders need to be inspected at the time of receipt for damages. Once you sign for a truck freight shipment order it is yours and there is nothing we can do about it if it is accepted as ok. If you should receive one that is damaged make sure it is marked as damaged and contact us immediately. If you should have the trucking company do anything extra (example: use the liftgate, pull the pallet inside for you, or have them call before they deliver it) those are extras that the trucking company will bill us for, in turn we will bill them to you as well. By ordering a truck freight order you accept this and authorize H&H to bill your credit card for these extra charges.

Air Shipping Charges
All air shipments are sent by UPS. Charges are based upon the size and weight of the box. We will have to call you back with a freight total.

Shipping Charges to Hawaii and Alaska
All orders shipped to Hawaii, Alaska, US territories and possessions must be prepaid with a credit card and will be shipped by the best means possible.

Shipping to Foreign Countries
All orders shipped to foreign countries must be prepaid with a credit card and will be shipped by the best means possible. Orders to foreign countries may incur customs and duty charges, customs broker and any other fees related to the importation of merchandise. All such charges are the responsibility of the recipient.

SURE-FIT KITS (GEN-V)

The Gen 5 is Vintage Air's most powerful and intelligent climate control system. The Gen 5 uses an exclusive fully electronic microprocessor control system that eliminates cables or vacuum connections. Separate high-capacity copper parallel-flow heat coil and aluminum plate-and fin-cooling coils provide outstanding performance and instant temperature adjustments.

Additional features include variable blower speed and dash/floor/defrost blend.
**Complete kits include everything in the evaporator kit plus all under-hood components such as compressor, engine brackets, condenser with brackets, preformed refrigerant lines, drier, fittings, hardware and installation instructions.
• Engineered to cool your vehicle faster than ever • Improved diagnostics and advanced systematic fail safes • Multiple mounting options for an easier installation • Rubber well-nut mounting points for improved NVH isolation • Separate high-capacity A/C and heater coils with blend air door for rapid vent temperature adjustment • OEM block-type expansion valve • Injection molded case for optimal precision, strength and quality • Injection molded blend air doors with integral rubber seals • Removable access covers for coil service • Interchangeable defrost and floor heat plenums for increased mounting flexibility • Powder coated steel mounting brackets • Quiet high-performance blower • Uses your factory controls with our electronic cable converters • Flat steel firewall cover

WARNING: When using a crate or salvage motor, make sure the compressor isn't a variable speed or output-type. These will not work with any Vintage Air system. These are most common on LS motors.

4389	Compressor Line Adapters Using Stock GM Compressor with Vintage Air Kit	59.95 Pair

All Vintage Air line kits use barrier type refrigerant line for use with HFC-134a refrigerant. Includes adequate hose length to connect complete system, all O-ring fittings and crimp ferrules. 134A systems include fittings with service ports. Set includes: 10ft of #6 line, 6ft of #8 line, 9ft of 10# lines, and standard drier. Drier not included on Part #3680.

VINTAGE AIR TO GM COMPRESSOR ADAPTORS

Used to adapt vintage air hoses to your stock GM compressor.

This SuperFlow condenser design was pioneered by Vintage Air to provide leading-edge technology and superior performance with today's 134a refrigerants. The importance of this unique new micro tube design and its improved refrigerant flow cannot be overemphasized. By providing increased refrigerant contact with the micro tube walls and multiple passes per circuit for low restriction pathway, SuperFlow condensers provide up to 40% more capacity than comparably sized old-style tube-and-fin condensers. **WILL NOT WORK WITH ORIGINAL AC SYSTEM.**

500 POWER STEERING CONVERSION BOX

Our 500 Series Box for your Camaro is truly the best of its kind. A direct
replacement for the factory power steering box or an easy way to upgrade from manual steering to power steering. The 14 to 1 ratio adds a new dimension of handling to your car, smooth operation and excellent road feedback.
Also, works with factory power steering pitman arm and 3/4-30 rag joint.
Uses the popular 7/16 tube size (11/16-18 inverted flare)pressure and 3/8 tube size (5/8-18 inverted flare) return port fittings

QA1 conical springs are designed so that the lower end sets on the coil-over shock and the upper end sets in the original spring bucket in the frame. This allows for the use of a longer and lighter spring for more stored energy, offering increased weight transfer. Greater durability is also achieved by locating the spring pressure in the frame and not on a single stud. The threaded aluminum body allows ride HEIght adjustment and boasts an easy bolt-in installation. The system includes Promo Star coil-over shocks, specially designed conical springs and all mounting hardware.

CPP's new Pro-Touring Kits are the most complete packages on the market and offer the ultimate in performance upgrades to your car or truck for an affordable price. Our kits come in 4 different stages, from suspension only (Stage I & II) to full kits (Stage III & IV) including front and rear brake packages. Our kits are made in the USA with the quality you have come to expect from Classic Performance Products, Inc. All our PTK kits include front and rear Totally Tubular™ upper and lower control arms, front and rear Pro-Touring sway bars with an optional billet aluminum mount upgrade, lowered front and rear coil springs with nitrogen gas shocks in the PTK1 or the dual-adjustable coil over package with rear dual-adjustable shocks (PTK2, PTK3, PTK4), lowered rear leaf springs (for leaf spring applications). Add CPP's chrome master cylinder/adjustable stop-block combo along with our front and rear 11" or 13" Big Brake disc brake kits, and you have a "tried and true" Pro-Touring package in the PTK3 (Stage III) and PTK4 (Stage IV) kits.

STREETGRIP SUSPENSION SYSTEM

Install a StreetGRIP suspension system on your full size 1967-1980 Camaro and you will be rewarded with improved ride quality, handling, and a lowered stance. The range includes, Biscayne, Bel Air, Impala & El Camino. The complete kit has been designed with dual rate coilsprings, heavy duty swaybars and self-lubricating bushings. To help get the front of the car as low as possible, we provide a set of dropped spindles. Arguably, the most important part of the kit is the adjustable monotube shock absorbers. Specially calibrated to work with early B-bodies, they provide a giant technological leap forward with respect to both ride quality and handling. The shocks also come with RideTech's exclusive million and one-mile warranty.

RIDE TECH COIL OVER SUSPENSION KITS

This CoilOver System is specifically designed for the 1967-1980 Camaro and includes everything needed to provide a lowered stance with dramatically improved handling and ride quality. The system contains front upper and lower StrongArms, front & rear MuscleBars, front HQ Series CoilOvers, rear StrongArms with upper wishbone, rear coil springs and rear HQ Series shocks. The benefit of buying a complete suspension system is that it takes all of the guesswork out when purchasing a new suspension. RideTech has spent hours collecting data to find a perfect spring rate and components for your vehicle's performance and ride quality.

RIDE PRO AND AIR POD SUSPENSIONS

Control airride equipped vehicle height with this affordable air suspension leveling system This is the original RidePro system developed in the nineties. It still works exceptionally well if you like simplicity and manual control. The system utilizes a high quality solenoid air valve system manual switches, analog gauges and dependable electric components to provide simple, & reliable control.

4070★	67-81	All w/Air Ride Ride Pro 3 Gallon Analog Control System	1369.95 Kit
4071★	67-81	All w/Air Ride Ride Pro 5 Gallon Analog Control System	1619.95 Kit
4072★	67-81	All w/Air Ride Ride Pro 5 Gallon w/Big Red Valves Analog Control System	2119.95 Kit

Adjust vehicle height at the push of a button while maintaining balanced air springs. The RidePro E5 control system tunes air ride suspension for proper handling and world-class ride quality by way of sophisticated pressure and height algorithms. Each time your turn the ignition key, RidePro E5 self adjusts to ride height and compensates for changes in load. Whether you are driving alone to work or on your way to a show with a car or truck load of friends, RidePro E5 will calculate proper air spring rate and balance, then work diligently in the background to maintain proper spring pressures and vehicle height. The Full color TFT LCD. 3.5" display with capacitive touchscreen make interacting with the control system quick and easy. Adjusting vehicle height is as simple as choosing one of three presets. Connect a compatible smartphone via Bluetooth and use the RidePRO E5 app to control the system wirelessly.

COLD-CASE

At Cold Case, their goal is to produce the highest quality aluminum radiator, make every model be a direct fit, look original, all while maintaining a reasonable price point. Their extensive research and development team ensures that you are getting a drop in radiator with every purchase. They don't cut corners or cross over year ranges if the dimensions are close. If we list it, it's a direct fit with no modifications to be made.
All Cold Case Radiators Feature:
•Lifetime Warranty
•Correct OEM Fitment
•100% Expert TIG Welded
•2 Oversized Cooling Rows
•(2x) 1" to 1 1/4" Tubes Per Row
•OEM Stamped Fully Polished Tanks

ALAN GROVE COMPONENTS, INC. ©

ALAN GROVE COMPONENTS INC. has specialized in fabricated specialty vehicle components for many years. Our mounting brackets are crafted from steel plate and represent our commitment to quality. All welding is T.I.G and all edges are smoothly finished. Our brackets are guaranteed to fit and include all the necessary bolts, nuts, spacers, hardware, belt-length recommendations and "easy to follow" illustrated instructions for simple installation. Dimension requirements for our brackets are provided within each bracket description on this web site. Please refer to these before ordering. Your satisfaction continues to be our goal.

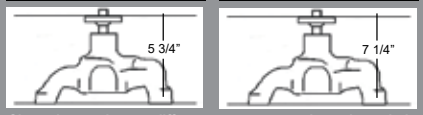
What kind of water pump do I have?

SMALL BLOCK WITH SHORT WATER PUMP | **SMALL BLOCK WITH LONG WATER PUMP**

Chevrolet used many different water pumps throughout their history. Please take the time and make sure that you identify which water pump you have so that you will be able to order the correct AC system or correct brackets and pulleys.

What kind of water pump do I have?

BIG BLOCK WITH SHORT WATER PUMP | **BIG BLOCK WITH LONG WATER PUMP**



Chevrolet used many different water pumps throughout their history. Please take the time and make sure that you identify which water pump you have so that you will be able to order the correct AC system or correct brackets and pulleys.

BRACKETS FOR SMALL BLOCK

Small Block With Short Water Pump

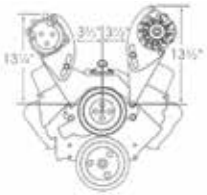
3605	Compressor Mounting Bracket	122.95 Ea
3606	Alternator Mounting Bracket	109.95 Ea

Small Block With Long Water Pump

3616	Compressor Mounting Bracket	122.95 Ea
3617	Alternator Mounting Bracket	109.95 Ea

These brackets bolt to the top water pump and the two front intake bolts. They may be used individually or as a pair, Will clear tall valve covers.

FRONT VIEW



BRACKETS FOR SMALL BLOCK

Small Block With Short Water Pump

3607	Compressor Mounting Bracket	122.95 Ea
3608	Alternator Mounting Bracket	109.95 Ea

Small Block With Long Water Pump

3618	Compressor Mounting Bracket	122.95 Ea
3619	Alternator Mounting Bracket	109.95 Ea

Designed for use in applications that require added clearance for tri-power carbs and dual quad carbs. Bolt to top water pump and the two front intake bolts. Alternator bracket works well with intake mounted oil filler tube and offset thermostat housings. Will clear up to 4 1/2" tall valve covers.

BRACKETS FOR SMALL BLOCK

Small Block With Short Water Pump

3609	Compressor Mounting Bracket	119.95 Ea
3610	Alternator Mounting Bracket	119.95 Ea

Small Block With Long Water Pump

3620	Compressor Mounting Bracket	119.95 Ea
3621	Alternator Mounting Bracket	119.95 Ea

A very versatile bracket system. Works with most induction systems. Will clear multiple carbs and most fuel injection. The alternator bracket will fit all 1969 and newer heads except Vortec. The AC bracket Fits all GM aluminum heads and may be used on 1969-1986 cast iron heads by drilling and tapping one hole for the upper mounting point. Will clear up to 3" tall center bolt valve covers when used on 1987 and later heads. Will clear up to 3 3/4" tall valve covers when used on 1986 and earlier heads.

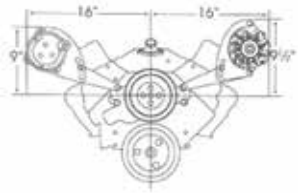
3612	Alternator Mounting Bracket	119.95 Ea

Small Block With Long Water Pump

3622	Compressor Mounting Bracket	119.95 Ea
3623	Alternator Mounting Bracket	119.95 Ea

Designed for cars with low hood clearance: Vettes, Camaros, etc. These brackets also work great on most vehicles with a wide engine compartment: trucks, 50's and 60's cars, etc. These brackets bolt to the head and top water pump bolt holes. The AC compressor bracket Fits all GM aluminum heads and may be used on 1969 through 1986 cast iron heads by drilling and tapping one hole for the upper mounting point.

Front View



BRACKETS FOR SMALL BLOCK

Small Block With Short Water Pump

3613	Compressor Mounting Bracket	119.95 Ea

Small Block With Long Water Pump

3625	Compressor Mounting Bracket	119.95 Ea
3626	Alternator Mounting Bracket	119.95 Ea

These brackets bolt to the water pump and exhaust. No holes are needed in the head. Furnished to fit with stock exhaust manifolds and most headers. If used with headers, the front tube must turn down enough to allow access to the bolt hold in front of the second pipe.

Engineered for low hood applications. Works great on any vehicle with a wide engine compartment: trucks, 50's and 60's cars, etc. Bolts to the heads and water pump.

FRONT RUNNER ENGINE DRIVE SYSTEMS

- Exclusive front runner spring tensioner provides continuous SAE-SPEC static and dynamic belt tensioning for OEM quality belt life
- Exclusive block-mounted design allows any deck HEIght/cylinder head combination. Uses no head or intake mounting bolts like conventional brackets.
- Super rigid truss-architecture design CNC machined from 6061-T billet aluminum. Available in machined or gray anodized finish.
- Engineered to clear most GM and aftermarket tuned port fuel injection systems.
- Exclusive fixed-position component mounting creates a super compact package within the basic engine size envelope. Fits into extremely tight chassis configurations.
- Uses exclusive new Vintage Air Tite-Fit Line/ Compact Compressor Package.
- Exclusive precision machined hard-coated aluminum pulleys reduce weight and wear like steel.
- Pulley sized engineered and matched for optimum component speeds.
- Uses compact GM Type II power steering pump and modified GM 140 amp alternator

LS1 INSTALLATION KITS

Easily install a modern, dependable, light weight, low maintenance, high powered V8 with CPP's new LS conversion install kit. Our install kit works with all Vortec and most LS engines. Kits include ceramic coated headers, CPP's FitRite adjustable transmission crossmember with polyplus pads, engine side mounts and CPP's FitRite adjustable engine side plates with polyplus pads. Car applications will also include an oil pan, windage tray and oil pick up tube. Note: May not work with LSX heads and dry sump oil systems. Not for LS7 applications.

Raingear WIPER SYSTEMS

Is the original wiper system on your Camaro/Firebird/Nova worn out? Or is the wiper system missing entirely from a project car? Our RainGear wiper system is a modern, high-quality replacement for the old system. It is the only replacement wiper system that is completely hidden, fitting entirely within the airbox in the cowl! This allows you to remove the stock wiper motor. The wiper motor hole in the firewall can be covered up with the cover plate supplied in the kit or you can weld in a patch panel to eliminate the hole entirely. Perfect for Pro Street cars or if you just desire a clean looking firewall. Please note – if you are using an aftermarket cowl panel, you will need to mock us up prior to paint. We've had reports of the cowl panel being too tall and not allowing enough clearance for the windshield wiper arms to fit without rubbing the cowl panel. The kit comes complete less arms and blades. Your stock arms will fit on our system. Please note that the RainGear unit cannot be controlled by any General Motors column-mounted wiper switches. You must use the included switch. This is due to the fact that GM switches control the wiper motor via the ground wire and our systems must be controlled by switching the positive wire.

TANKS

GAS TANKS FOR EFI/KITS

1967-81 Camaro EFI Fuel Tanks. Will fit Coupe or Convertibles. Availible in std or notched tanks for extra wheel clearance.Fuel Injection ready, some units include 2 piece neck design for easier shipping. Utilizes tanks brand GPA series fuel pumps. Uses aftermarket 5 bolt senders. Internal baffling with extra large 4.8 liter dual tube fuel tray to prevent fuel pump starvations. Perfect for Pro-touring, Autocross, or Road racing applications. Looks like OE tank when installed. Coated galvanized steel then powder coated silver. 1" deeper than stock, longer straps included with tank.

CLASSIC INSTRUMENTS
The finishing touch

1967-'68 Classic Camaro instrument cluster is assembled in premium quality OER production dash bezel. The set includes a 4 5/8" SpeedTachular (with built-in ECM filter signal switch) and quad gauge with temp, volt, oil pressure, and fuel gauge programmed to read the stock 0-90 OHM fuel sender. The package is ready to bolt into your dash, complete with instrument wiring harness and all necessary sending units.

SKYDRIVE

Calibrate your speedometer in less then a minute and you don't even have to leave your driveway! Sky Drive is the world's most accurate electronic speedometer sending unit. No need for ECU convertors or pulse signal generators screwed onto your transmission. The new Sky Drive uses GPS Satellite signals to operate your electronic speedometer. It updates 10 times per second and with one push of a button it's ready to go.

4272 67-68 All w/Classic Instrument Guages 285.95 Ea

FUEL LINK

The Fuel Link interface is the problem-solver between fuel senders and gauges to correct OHM mismatch and erratic movement due to fuel slosh.

4392 64-72 All 156.95 Ea

SPEED SIGNAL INTERFACE

The SN74Z has the following features when used as a Speedometer interface. Three wire pulse signal generator input source. Built-in Vehicle Speed Sensor (VSS) input source. Works with most Tremec transmissions and Later model 700R4's.

Typically a sine wave signal, two wire pulse signal generator input source. One wire ECM signals input source. The output can be selectable between either 8000 pulse per mile or 16000 pulse per mile. Outputs a 12V square wave, 50% duty cycle 8000 pulse per mile cruise control output.

YOU MUST HAVE CLASSIC INSTRUMENT GUAGES TO USE THIS ITEM.

Dakota Digital

Since 1986, Dakota Digital has proudly designed, built and supported digital instrumentation from their Sioux Falls, South Dakota facility. Starting with the spark of an idea, plans are made; from the overall look to the internal circuitry and software. With plans in hand, housings, substructures and other hard parts are carved out of billet aluminum and lightweight HDPE in their fully equipped machine shop. A CNC router, several lathes and multiple CNC mills handle the dirty work. The housings are then carted across the 40,000sqft facility to the production floor, where intricate circuit boards are being populated on state of the art machines. Subassemblies featuring countless laser-cut bits are fitted to their respective housings, software is loaded, and the conglomeration of pieces is starting to look like a car part!

DAKOTA DIGITAL DASH ASSEMBLIES

Get modern conveniences with a classic look by updating to digital gauges! No need for drilling extra holes. These gauges are made to exactly replace originals. **Bezels & housings not included!**

DAKOTA VHX DASH ASSEMBLIES

The first generation Camaro and Firebird started a legacy with unmatched popularity to this day. This is a terrific way to update your pony car without losing its original style. Simple installation using a stock or reproduction instrument bezel (available separately) yielding full instrumentation will have admirers doing a double-take. Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors,

solid state sensors for unparalleled accuracy, and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems . Completely engineered and manufactured at our facility in Sioux Falls, South Dakota, the VHX Series has completely revolutionized the instrumentation industry!

DAKOTA DIGITAL HDX SERIES GAUGES

Released three years after Mustang but in the lead ever since, Camaro aims to please. 1967-81 Chevy F-bodies make excellent drag cars, corner carvers, even lowriders. Any way you slice it, this instrument package makes the most of the dual-round gauge cluster. Each opening features three analog gauges snuggled up to a full-color TFT display. Summon just about any bit of information on the dual screens using the integrated, capacitive-touch buttons. Available with your choice of black or silver alloy gauge-face styling, each HDX system allows the user to select independent illumination colors for the gauge readings and needles, as well as the message centers. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth app for Apple and Android devices. Each needle hub is black nickel plated spun-aluminum to match the buttons. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable), and a red, settable warning light for each gauge. With our central control box, installation is greatly simplified with vehicle-harness sourced signals and supplied, solid state sending units connecting cleanly to their respective terminal.

DAKOTA DIGITAL RTX SERIES GAUGES

This one-year-only gauge layout and instrument design screams performance for die-hard Chevy fans, and coupled with our modern technology, the accuracy finally matches the look. Using the stock bezels and gauge housings from your '67 Camaro, this package installs directly in place of the original instruments and adds twin TFT message centers; we even replicated the analog clock! This is a complete package and cannot be split up. Dash and console bezels not supplied. The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on in your favorite color scheme, all doubts will be removed. Starting from scratch, CNC machined housings are filled with electronics designed and built in-house, helping Dakota Digital once again raise the bar for aftermarket instrumentation. The high-definition TFT message centers can be fully configured to display just about any piece of information needed. As you've come to expect from Dakota Digital, the RTX series utilizes a central control box to make installation and setup as easy as possible.

GRAFIX GAUGE SYSTEM

The Grafix Series from Dakota Digital is the culmination of decades of expertise and industry-leading products, creating the most advanced and customizable instrument system available. The Grafix Series uses a variety of full-color TFT screens, maximizing the OEM gauge openings, or even within a universal or custom fitment. The Grafix Series allows the user to customize nearly every aspect of the instrument system. A variety of graphic themes can be selected, each element within can be further personalized with unique display colors and warning modes. Furthermore, each gauge location can be configured with an Analog, Digital, or Bar-graph style of readout. Each display can show readings singly, grouped in pairs for twice the visible data, or completely reconfigured to show a different readout entirely!

DAKOTA DIGITAL EXPANSION MODULES

The introduction of the Dakota Digital BIM modules allow you to add up to an additional 16 gauges to your vehicle without the need to cut extra holes in the dash or installing pillar and pod mounts to your columns or under the dash. **You must have Dakota Digital Gauges to use the expansion modules.**

IDIDIT

For installing an option that never was, Ididit designed the perfect replacement for original 1955-1957 columns, but with the added comfort of five-way tilt adjustment. Each column comes in four finishes: paintable steel, chrome, and polished or brushed aluminum. Each column can be adapted to work with the original steering wheel using the #3575 adapter kit or any GM steering wheel made after 1969, as well as many aftermarket wheels with the use of an adapter. Each column comes with an Ididit alumnium dress-up kit, wiring adapter harness for four-way flashers, rag joint coupler, and Ididit's exclusive Tri-five mount.

We offer each column in either non-column shift for all floor shift cars as well as in column shift for automatics. Each column is the correct length for 500 boxes. If you have chosen to use a rack on your car, let us know and we can special order a tilt column for your specific application. Note: All of our column kits include rag joints and floor mounts, but these can be bought separately below.

IDIDIT DOESN'T BUILD ANY COLUMNS FOR 3-SPEED ON THE COLUMN.

HEAT INSULATION

The Insulator is a quality-made, moisture-resistant heat and sound barrier. It is a 4' x 6' 3/8" sheet of foil-backed insulation that has hundreds of uses in automobiles, boats, and RVs including:
Don't forget about the spray adhesive and seam tape. These two products will help you complete the installation of the Insulpad insulation sheet.

ACC was born in 1977, and we've been on an epic journey ever since. From our beginnings as an Auto Trim Business to becoming the world's largest manufacturer of Automotive Flooring products, we've tried to stay true to our core principles. Deliver exceptional products made in the USA. Strive every day to be better than the day before. Do it faster than anyone. We are very grateful to the millions of customers who trust us each year and for joining us on this awesome ride. We hope that you'll continue to be a part of our story.

Why ACC?

Automotive Flooring is what we do. It's all we do. It's not a side business. It's not one of numerous other product lines that could divide our attention. It's all we focus on every day. We know you and your vehicle deserve that.

Our dedicated team is our biggest asset. These long time employees insure the products we produce every day are of the highest quality and made with the best craftsmanship. From our engineers, to the materials and equipment we use, to our dedicated staff, we are relentless in our pursuit to manufacture a product that we all are proud of.

PARTS UNLIMITED INTERIORS

Parts Unlimited Inc. (PUI Interiors) was founded in 1977 with a commitment to serve the automotive aftermarket industry. Since then, we have proudly continued a tradition of providing the finest quality interior restoration components available at the fairest possible price. Because of our experience and extensive in house capabilities, we are able to maintain nearly all of our quality control right here at PUI. We believe quality is our future, and we stand by our products.

NOTE: All Camaro door Sedan and Wagon seat covers sold by H&H are manufactured by PUI Interiors.

Custom Autosound Mfg., Inc. established in 1977, started manufacturing AM/FM cassettes in 1981. We now have eight models available! They are shipped 'bare' from overseas to Fullerton CA, where our technicians 'kit' (modify) them for over 400 different makes and models of classic cars and trucks

WARNING: All radios listed in this catalog cannot be used with original speakers. You must update with some form of late model speaker.

CD PLAYERS

All control is from the buttons on your USA-630, Slidebar or Secretaudio radio

● Plays CD/CD-R/CD-RW/DVD audio/WMA/MP3● Small enough to hide under the seat or in glove box ● ESP Electronic Shock Protection ● Repeat/ Program/ Random/Intro Function ● Multi-Angle Playback ● Last Position Memory ● 9' Cable for connection to CAM head unit ● Dimensions: 7"wide x 1" high x 6-3/4 deep

2059 67-81 w/USA630 or Secert Audio System 199.95 Ea

SECRET AUDIO SYSTEMS

Hideaway 200 Watt AM/FM CD controller with USB MP3/WMA Flash Drive, iPod interface and more. Featuring "RF" (radio frequency) remote control. Ideal for Streetrods, Classics, Customs or any Vehicle! Leave original radio intact! LCD display unit can be mounted almost anywhere and be controlled by wireless remote from up to 40 feet away. The tuner/amplifier unit (black box) can be hidden out of site (under seat, dash or trunk) . Comes with 10' cable from LCD panel to tuner/amp. Two mounting options included for the LCD control panel! (Flush mount bezel, or a swivel mount bracket!) We have even included the iPod docking cable (iPod not included).

3914 All 384.95 Ea

BLUE TOOTH KITS

Wireless interface for Custom Autosound CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your Custom Autosound radio and gives you the ability to do hands free calling from your bluetooth capable phone.

Also listen to music stored on your A2DP enabled bluetooth device. If you have a CD changer or CD1 single player you can still use it with the adapter plugged in (there is a CD changer port on the control box of the Bluekit). Main control box has a 1.5' cord that goes to radio CD port, 6.5' cord to answer button and 3.5' cord from answer button to microphone.

USA 230 RADIOS

If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio at a great price. Radio has no cassette but comes with auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio. Our kits modify each radio to fit specific vehicles right out of the box. No extra kits/bezels needed!

● AM-FM Stereo ● 200 Watts (4x50) ● Auxiliary Input (RCA Rear) RCA to 1/8" pin jack included ● Digital Clock ● Electronic Tuner ● 16 Pre-sets (4AM-12FM) ● 4 Channel RCA Pre-outs ● 4 way Fader ● Power Antenna Lead

40418 78-81 All 225.95 Ea

USA 630 RADIOS

This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA song files. This jack is on an 14" extension which allows you to place it in the glove box or ash tray for easy access (no unsightly wires or plugs hanging out of the front of the radio). The new alpha numeric display (30% larger than previous models) shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional iPod® interface that turns your iPod on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. A great feature so you can keep the iPod hidden away in your glove box or console. The back of the radio also has auxiliary audio input for satellite radio or any portable player you may wish to use. Our kits modify each radio to fit specific vehicles right out of the box. No extra kits/bezels needed!

●AM-FM Stereo ● 240 Watts ● USB Port for Flash Memory MP3/WMA Playback ● Direct 10 CD Changer Control ● Alpha Numeric id3 Display for MP3/WMA files ●Electronic Tuning and Volume Control ● 4 way Fader ● Left Right Balance ● Digital Clock ● 2 Channel RCA Auxiliary Input for Satellite / iPod etc. ● 16 Pre-sets (12FM-4AM) ● 4 Channel RCA Pre-outs ● Separate Bass and Treble ● USA/Euro Tuner ● Power Antenna Lead

USA 740 RADIOS

The USA-740 offers the same classic look that Custom Autosound has always been known for with today's latest features. Now, with built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. Classic style with today's sound and performance taking every road and curve with you in your vintage vehicle.
● AM-FM Stereo ● 300-watt ●Hi 4volt, 4channel RCA Pre-outs and a Subwoofer RCA pre-out for additional amplifiers.●USB input ●front mini jack auxiliary audio input ●rear RCA auxiliary audio input
Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on the LCD display. For those of us committed to music collections on compact disc, the USA-740 fully controls our optional CD-1 CD player.

Repops has been a manufacturer of reproduction parts since 1991. Like many other companies in this industry it was started in a garage as a hobby and then grew from there. In the late 90's the company started the first line of "authentic" beltline kits, revolutionizing that product line. Since that time we have continued to be the leaders in beltline kits in both quality and quantity of types of kits offered. Also expanding into 12 other classes of parts such as heater seal kits and glovebox liners etc. Repops calling card has been their commitment to the end customers. Offering a rare Lifetime Warranty to the original purchaser of the product, plus the included customer service number for questions regarding purchased parts. All of this adds up to confidence for our dealers when selling a Repops part.

Nu-Relics POWER WINDOWS

Looking for top quality dependable power windows for your Classic Cars, Classic Trucks, Muscle Cars, Street Rod or Hot Rods? Nu-Relics manufactures direct bolt in gear driven windows for classic cars. The power window conversion kits are truly make and model specific - designed for the regulator to work like the original manual regulator with correct bolt patterns and arm lengths. Installation is easy – unbolt the manual regulator. Reverse the process and bolt in the power regulator in the exact same location.
Nu-Relics power window kits for classic cars and hot rods provide some great features such as:
•The kits are available with various switch options. Has chrome switches and
Nu-Cranks that allows your original crank handle to operate as a power switch.
•Kits include: regulators, motors, completed wire harness, choice of switches, conduit to protect the wires going thru the door. Each product page includes pictures of all the parts included in the kits.
•Works with curved glass
•Regulators are constructed of durable components (treated gear plates,1018 cold rolled steel, Bronze Oilite® thrust bearings at pivot, etc.)
•Lifetime warranty against manufactures defects on the regulators, motors, and switches purchased from Nu-Relics Power Windows, LLC.

Co-owners Michael Manning and Frank Colonna founded American Autowire in 1983. Back then, it was a two-man operation working from Michael's basement in Laurel Springs, NJ. Now, Michael and Frank are still at the helm along with Jim Cardona, but with over 70 employees and 38,000 square feet of space at the American Autowire manufacturing facility in Bellmawr, NJ. We have become the premier automotive electrical manufacturer for OEM/Restoration, Modified Restoration, and Street Rod/Custom vehicles, currently offering 6 different product lines of wiring harnesses, accessories, and parts that cater to all types of automotive projects.
American Autowire produces a huge selection of wiring harnesses, accessories, kits, and components

What makes the Classic Update Series harness kit better than the competition? The Classic Update Series design philosophy is to build complete "full function" systems and engineer them for easy access, easy installation, and connectivity with common update accessories, all while allowing for future expansion.

Each kit is a completely new design engineered around the specification and physical dimension of your car or truck, as well as the space constraint imposed by many aftermarket accessories vying for the limited space under the dash. These kits are not generic street rod products. Superior design has given the builder complete flexibility to use original stock switches and components as well as Custom Update accessories such as: Dakota Digital instruments, RainGear wiper systems, Vintage Air heat and AC systems, Ididit and Flaming River steering columns, and late model GM tilt steering columns.

The fuse box was chosen for its adaptability in mounting configurations and its ability to handle the increased current loads demaned by power accessories such as power windows, power seats, power door locks, cruise control, etc. It is a proven GM design that incorporates heavy duty circuit bussing. There is no circuit board in this high-power fuse box assembly, as the potential power demands are too high for a circuit board design. It is the attention to detail that removes the engineering exercise from the builder and makes installation much smoother.

Warning: This wiring kit will not support an ampmeter of any form. There are no instructions included on how to wire up an ampmeter.

TECHNICAL SPECIFICATIONS AND FEATURES

- Fuse box incorporates 18 fused circuits and expansion capibility for 11 additional power circuits. Fuse box measures
- 4" x 6" and is molded in resistant nylon 6/6. All necessary mounting hardware is included.
- Fuse link protection on fuse panel power feed.
- Circuit breaker capability on power circuit.
- High heat and abrasion resistant XLPE wire withstands -60°F to 275°F. GM wire color coding system.
- Wire circuit inkjet printed every 3 inches.
- Wire circuit take-off points predetermined to clear under rdash accessories,allowing pretermination of most circuit branches and plug-in installation of most circuits.
- Standard turn flasher, four-way hazard flasher, and horn relay mounted on fuse panel.
- 8-guage alternator power lead wire supplied with fuse panel.
- Alternator connector supplied for GM "SI" series internally regulated alternators and "one wire" alternators.
- Original boot and tube assemblies with original light socket connectors included for installation into existing or reproduction tailight housings. Even custom applications require these assemblies for weather protection.
- Terminals and connectors are provided for all dome light and door jamb switches cover two and four door models.
- Front lighting includes headlight connec-tors, headlight bucket grommets, connections front parking and directional lights.
- Complete wiring for updated GM steering column, turn signals and hazard switch.
- Mating connector and terminals supplied to adapt to original steering column. Ignition switch connectors supplied for GM columns with ignition switch in column.
- Engine wiring for points type and HEI distributiors. Power and tachometer connectors supplied for GM HEI distributors.

- Gauge sender leads are provided for fuel,water temperature, oil pressure, voltmeter, and tachometer.
- Power wiring for electric engine fand, fuel pump, windows, door locks, seats, cruise control, and accessory radio included.
- Instrument cluster disconnect built into under dash harness for complete felxibility in gauge cluster section. All original terminals, connectors and light sockets are supplied for original cluster gauge wiring.
- Cluster disconnect also supports any custom gauge configuration.
- Late model GM headlight switch included.
- Floor mounted dimmer included.
- New ignition switch included.
- Fully detailed installation instructions and wiring.
